High Tide Exterior Cleaning Solutions Named “Best Cleaning Service” In 2012 Best of St. Augustine Competition

ST. AUGUSTINE BEACH, Fla. (September 2012) – High Tide Exterior Cleaning Solutions, Inc. is thrilled to announce that it earned the title “Best Cleaning Service” in the 14th annual Best of St. Augustine competition. Held annually by the St. Augustine Record and StAugustine.com, the Best of St. Augustine provides the community with an opportunity to vote for the local businesses they feel are the best at what they do. More than 14,000 people voted in the 2012 contest.

“We’re humbled that so many of our customers felt strongly enough about the high quality of our work and customer service to vote for us,” said David Styles, owner of High Tide Exterior Cleaning Solutions. “For the past four years, we’ve been honored to serve the St. Augustine community. It’s gratifying for the highly detailed and very physical work we do day in and day out to be recognized and appreciated.”

Why Hire a Professional?

High Tide’s safe, gentle, and effective cleaning process relies on appropriate use of heat, pressure, and cleaning solutions. The company uses professional grade cleaners that are tough on dirt, pollutants, mold, mildew, and algae yet safe for people, plants, and animals.

“Anyone can rent or buy a portable pressure washer and get to work. But without proper equipment and experience, you can easily damage your home -- or worse, someone else’s,” said Styles. “Since launching our business four years ago, we’ve gained extensive experience from cleaning hundreds of homes and commercial buildings and nearly half a million square feet of roofs plus long hours in research and training. Our customers have definitely benefitted.”
